

THE ACCOUNTANTS AND FINANCIAL DIRECTORS

The Font of Knowledge

Now in its 25th Anniversary year, the RM Group, a leading provider of Business Information, UK and Overseas Company Formations and Trade Mark services, will be exhibiting at THE ACCOUNTANTS AND FINANCIAL DIRECTORS EXHIBITION for the first time. RM Information provides a wide range of specialist services, with reports to suit the needs of those with a requirement for speedy, accurate commercial information. In line with current Due Diligence procedures, RM has devised a NEW Auditors report to be launched at the Exhibition, which, in addition to a full search, covers areas such as County Court Judgements, London Gazette information, Mortgage & Charges and Credit Ratings. Increasingly, companies are looking to keep abreast of their competitors' activities. RM facilitates this time consuming task by providing clients with detailed

reports on competitors.

RM's Company Credit Appraisals give a thorough analysis of a company's financial and credit standing.

RM Company Services, with a wealth of experience in the formation industry, can offer useful advice and tips in setting up UK or Offshore companies, on a same day basis if required. Other services include Company Secretarial services and general administration services.

The importance of projecting a company's intangible corporate assets in the current fiercely global business environment is reflected in the staggering growth rate of Trade Mark registrations over the last decade.

The RM Trade Mark Division provides expertise in this field, from the initial search of a trade mark on a worldwide basis through to lodging and overcoming any obstacles to the registration of the mark.
